Phone Software Version Evaluated: v4.6.1.231

Comment: This phone supports transferring the phonebook to the vehicle when initiated through the navigation interface.

General Tips:

-The Phone Keys are located on the steering wheel (On-Hook and Off-Hook).
-Phone numbers may be programmed into the vehicle after transferring the number from the handset or entered manually.
-An outgoing call log will not be created in the navigation system when using the handset to dial a phone number.
