Phone Software Version Evaluated: v4.6.1.231

Comment: This phone is only able to transfer the entire phonebook at once. This handsfree system will only receive the first contact in the phonebook.

General Tips:

-The Phone Keys are located on the steering wheel (On-Hook and Off-Hook).

Bluetooth Operation*

A) Pair Phone to Vehicle

- On the Steering Wheel -

1. Push the Voice Command Button and wait for a beep before each verbal command.

- Verbal Commands -

1. If the system introduction is heard, continue to step 3.
2. Say "setup", then "phone setup"
3. Say "pair phone"
4. Say "phone only"
5. Say a name for the phone. The system will then repeat the name. (example: John's phone)
6. Say "confirm" to continue, or "go back" to edit.

- On the Phone -

1. Select "Settings"
2. Select "Options"
3. Select "Bluetooth"
4. Select "Menu" (Enable Bluetooth if it isn't already)
5. Select "Add Device"
6. Select "Search"
7. Select "Handsfree"
8. Enter passkey shown on Handsfree display

* To enhance connectivity:

Check "Don't ask this again"

9. Select "Yes" to connect to Handsfree
