Pressure Switch, PSF100A

\$3.50

The rugged yet ultra-sensitive PSF100A pressure switch incorporates a patented dual diaphragm / dual contact design offering protection against false actuation due to shock and vibration.

SPST, Double-Make--Double-Break

Switching Medium: Air---- Min. 0.2 Psi (Max. 10 Psi) Uses 3/16" ID tubing

Electrical Connections Terminals - .187"x.020" tab-type, for use with quick disconnects.

Has two different control ports one for low-the other for high pressure operation.

If one port is at atmospheric pressure(i.e. open) the other will trigger the switch on pressure (high port) or vacuum(low port).

If both ports are used then it will switch on the difference.

Operating Voltage AC/DC - 30V or less with resistive load; 120 VAC neon lamp load.

Current rating: Less than 40mA

Mounting by 2-4 #2 screws.

- Model: 280-1038
- Shipping Weight: 0.025lbs
- 47 Units in Stock
