Title:

JBL AUDIO SYSTEM STATIC NOISE

Models:

'03 4Runner

AUDIO
AU003-03

Introduction When first starting the vehicle, some customers may experience a condition where there is static noise from all channels of the audio system or no sound from the audio system. This condition typically occurs on cold mornings. Once the amplifier warms up, normal operation is restored. An improved JBL amplifier is available to address this condition.

Applicable Vehicles

- **2003** model year **4Runner** vehicles **equipped with the JBL audio system** produced **BEFORE** the Production Change Effective VINs shown below.
